

ABOUT

VWB/VSF - Canada

Helping to improve the livelihoods of communities in need throughout the world is what Veterinarians without Borders/ Vétérinaires sans Frontières - Canada (VWB/VSF - Canada) is all about. Founded in Guelph just four years ago, VWB/VSF - Canada has already put Canadian expertise and resources to work in more than 25 projects in parts of the world as near as the Canadian Arctic and as far as Indonesia and Malawi. We are committed to engaging people where they live and working with them to build on their existing strengths to adapt and prosper in the rapidly changing world. From developing a canine population control program in Guatemala, to improving goat production for women and children in HIV/AIDS – affected households in Uganda, to assisting in the development of veterinary curricula in Senegal, VWB/VSF - Canada is continually working to help communities develop locally-defined strategies to promote and maintain public and animal health.

Our Vision

We envision a healthy world for people, animals and our shared ecosystems.

Our Mission

Our mission is to work for, and with, communities in need to foster the health of animals, people, and the environments that sustain us.
